

RIVERBEND RESOLUTION NO. 20210127-04

**APPROVING THE FY 2019-2020 ANNUAL AUDIT
PERFORMED BY WILF & HENDERSON, P.C.**

WHEREAS, Riverbend Water Resources District is a conservation and reclamation district created under and essential to accomplish the purposes of Section 59 Article XVI, Texas Constitution, existing pursuant to and having the powers set forth in Chapter 9601 of the Special District Local Laws Code of the State of Texas; and

WHEREAS, Riverbend Water Resources District Board of Directors deems it necessary to engage a qualified Certified Public Accounting firm to conduct an annual audit, which provides for increased fiduciary responsibility of Riverbend Water Resources District funds; and

WHEREAS, Wilf & Henderson, P.C. provides the necessary accounting and financial services to fully perform an annual audit; and

WHEREAS, Riverbend Water Resources District staff and Wilf & Henderson, P.C. staff collaborated to conduct the audit and represent the financial statements, management discussion and analysis, and management representations in accordance with applicable laws and regulations.

NOW, THEREFORE, BE IT RESOLVED that the Riverbend Water Resources District approves the FY 2019-2020 Annual Audit performed by Wilf and Henderson, P.C. for distribution.

PASSED and APPROVED this 27th day of January 2021

Introductory Section

January 27, 2021

The Board of Directors,
Members of Riverbend
Water Resources District

In accordance with state statutes, the Comprehensive Annual Financial Report (CAFR) of Riverbend Water Resources District for the fiscal year ended September 30, 2020 is hereby submitted. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the enterprise funds of the District. All disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activities have been included.

PROFILE OF THE DISTRICT

Riverbend Water Resources District was created in 2009 by Senate Bill 1223 of the Texas Legislature. It is a conservation and reclamation district with statutory powers including the authority to acquire any and all storage rights and storage capacity in a reservoir and to acquire the right to take water from that reservoir. The roots of the District can be found in the area's past regional water partnerships focused on utilizing Wright Patman Lake as their primary water supply source. In 1953, and again in 1968, the City of Texarkana, Texas, in cooperation and with the support of its neighboring cities, executed agreements with the U.S. Army Corps of Engineers to use a portion of the flood control pool at Wright Patman to meet their long-term water supply needs. Over time, Texarkana, Texas on behalf of itself and other area users, secured permits which allowed them to impound, divert, and appropriate water in Wright Patman lake for both municipal and industrial use.

In 1966, the Lake Texarkana Water Supply Corporation ("LTWSC") was created for the purpose of financing the acquisition, construction and maintenance of a new water treatment and distribution system to its members. In 1969 in order to support LTWSC's debt issue and facilitate administration of the new water treatment and distribution system, the City of Texarkana, Texas signed water supply contracts with surrounding Texas-side communities, known as the original Member Cities (including Annona, Avery, DeKalb, Hooks, Maud, New Boston, Texarkana, Texas, and Wake Village), collectively known as "Member City Contracts." Today, Riverbend has now grown to include eighteen (18) members that include communities within Bowie, Cass and Red River Counties in northeast Texas. District membership grew during 2011, after being reconstituted, and again in 2019, Texas Special District Local Law Code Section 9601.005(b) allowed water supply corporations to join the District. Current members include Annona, Atlanta, Avery, Central Bowie County WSC, DeKalb, Hooks, Leary, Maud, Nash, New Boston, Oak Grove Water Supply Corporation, Redwater, Texarkana, Wake Village, TexAmericas Center, as well as Bowie, Cass and Red River Counties.

The District provides water, wastewater, and industrial wastewater for Red River Army Depot and the tenants within the TexAmericas Center footprint for an estimated population of 6,000 people. The District represents, through Interlocal Agreements with our membership, the water supply interest for area communities. The District operates as a retail water supplier. The treated water is purchased from the City of Texarkana, Texas and Texarkana Water Utilities and supplied to customers on our system. The District serves as the local representative for Wright Patman Lake on issues with the U.S. Army Corps of Engineers, Texas Commission on Environmental Quality (TCEQ), the Texas Water Development Board (TWDB) as well as acting as representatives for our membership in the Region D state water planning area and will be working on the initial statewide flood planning effort over the next few years.

The District is governed by a Board of five directors consisting of two directors appointed by the City of Texarkana; one director appointed by the City of New Boston; one director appointed by TexAmericas Center; and one director appointed by the remaining member entities.

ECONOMIC INFORMATION/OUTLOOK

The largest employer in the District, Red River Army Depot (RRAD), is also the largest customer of the District and represents the majority of the operating revenue for the District. The FY 2021 RRAD budget is approximately 8% higher than the current year and the remaining business, commercial and residential retail water customers located in TexAmericas Center, are expected to remain the same.

MAJOR INITIATIVES/LONG TERM FINANCIAL PLANNING

Riverbend has major on-going initiatives that staff will be focusing on for this fiscal year and into the future. First, Riverbend has secured \$200M of funding, through the Texas Water Development Board's Drinking Water State Revolving Fund, for a new regional water treatment facility. Riverbend executed water supply contracts with the participating member entities to support the debt payback along with the operations and maintenance on the project. This project will utilize a multi-year bond issuance package, to be distributed as listed below.

- FY 2020-2021 \$18M bond issuance
- FY 2021-2022 \$93M bond issuance
- FY 2022-2023 \$14.4M bond issuance
- FY 2023-2024 \$74.6M bond issuance

Also, Riverbend and Texarkana, TX have submitted a water rights application to the Texas Commission on Environmental Quality (TCEQ). This water right application has been submitted to hopefully secure enough water for the region for the next fifty years. Currently, TCEQ is in the administrative review process. Staff is working closely with TCEQ in providing information to aid the review.

Riverbend is also working with RRAD to complete the design and construction of a new industrial wastewater treatment facility. Riverbend will be completing an application for funding through the Texas Water Development Board in the amount of \$13.5M during this fiscal year.

FINANCIAL INFORMATION

The District accounting system consists of three enterprise funds where all financial activities are recorded. Management of the District are responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected. Because the cost of a control should not exceed the benefits to be derived, the objective is to provide reasonable, rather than absolute assurance, that the financial statements are free from any material misstatements. Within this framework, management believes that the District's transactions are properly recorded, and the financial report is complete and reliable in all material respects.

Enterprise Operations. Total revenues for all funds for the fiscal year were \$5,257,062 compared to \$5,062,709 for FY2019.

Budget Controls. A budget is prepared annually in accordance with the Texas Water Code Chapter 49, Subchapter G, Sec. 49.199 and, after approval by the Board of Directors, is used in planning and controlling costs. During the year, necessary budget amendments are submitted and approved by the Board prior to implementation.

Debt Administration. Outstanding large debt on September 30, 2020 totaled \$9,335,000 which consisted of Water and Wastewater Revenue Bonds Taxable Series 2016A of \$4,420,000 and Water and Wastewater Revenue Bonds Taxable Series 2016B of \$4,915,000.

OTHER INFORMATION

As required by the Texas Water Code Chapter 49, Subchapter G, Sec. 49.191, an audit of the District's fiscal accounts and records must be conducted annually. Accordingly, the Board of Directors appointed the firm of Wilf & Henderson, P.C. to complete the audit of the District's records.

Wilf & Henderson, P.C. has issued an unmodified opinion of the District's financial statements for year ended September 30, 2020. The independent auditor's report is located at the front of the financial section of this report. Immediately following the reader will find Management's Discussion and Analysis (MD&A) that provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

AWARD AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Riverbend Water Resources District for its comprehensive annual financial report for the fiscal year ended September 30, 2019. This is the first year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of Riverbend Water Resources District and our independent auditors. I would like to express appreciation to the Board of Directors and Executive Director for their unfailing support and for maintaining the highest standards of professionalism in the management of Riverbend Water Resources District finances.

Respectfully submitted,

Tara Houck, CPA
Chief Financial Officer

Financial Section

Independent Auditors' Report

Board of Directors
Riverbend Water Resources District
Texarkana, Texas

Members of the Board:

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Riverbend Water Resources District (Riverbend) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise Riverbend's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Riverbend Water Resources District as of September 30, 2020, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-6, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Riverbend Water Resources District's basic financial statements. The supplementary information budgetary comparison schedules on pages 21-23 and the supplementary information schedules required by the Texas Commission on Environmental Quality on pages 24-35 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Introductory Section and Statistical Section

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Riverbend Water Resources District's basic financial statements. The introductory section on pages i-viii and the statistical section on pages 36-55 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 12, 2021, on our consideration of the Riverbend Water Resources District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Riverbend Water Resources District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Comprehensive Annual Financial Report (CAFR) for Riverbend Water Resources District presents a discussion and analysis of the District's financial performance during the fiscal year ended September 30, 2020. Please read it in conjunction with the transmittal letter at the front of this report and the District's basic financial statements following this section.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$14,171,059 (net position). Of this amount \$9,614,188 (68%) are invested in capital assets for business-type uses and are not available to generate liquid capital. Net position restricted for specific purposes total \$3,189,363 (22%). The remaining \$1,367,508 (10%) is made up unrestricted funds which may be used to meet the District's ongoing obligations to members and creditors in accordance with the District's fiscal policies.
- In fiscal year 2020, Riverbend's combined net position increased \$1,906,698 to \$14,171,059. More than half of the increase (52%) is due to capital contributions received in the amount of \$983,153. The remaining increase can be attributed to an increase in non-operating revenues with the majority of the increase due to debt service payments received in the new Regional Water System Facilities Fund.
- The District's total long-term obligations decreased by \$729,418 (8%) due to regularly scheduled debt service payments.
- Riverbend's operating revenue decreased by \$24,699 to a total for fiscal year 2020 of \$3,564,122. The Administrative fund's operating revenue decreased by \$89,607, primarily due to a decrease in services provided to member cities. The Wet Utilities fund's operating revenue increased by \$64,908, the net of an increase in RRAD revenue over a decrease in residential and commercial volumetric charges due to the closure of a large commercial customer.
- Riverbend's combined operating expenses increased by \$145,608 to a total for fiscal year 2020 of \$3,954,838. The Administrative fund's operating expenses decreased \$64,530 due to decrease in meetings, travel, and training due to COVID-19 as well as a decrease in member services expenses. The Wet Utilities fund's operating expenses increased \$131,925 due to a complete year of salaries and benefits for staff positions filled in prior year as well as increased expenses related to additional services provided. Depreciation expense increased by \$78,213.
- Riverbend's combined nonoperating revenues/expenses increased by \$500,038 to a total for fiscal year 2020 of \$1,314,261. As stated above, the majority of this increase is due to debt service payments received in the new Regional Water System Facilities Fund.
- Riverbend's capital contributions increased by \$589,826 to a total for fiscal year 2020 of \$983,153.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to Riverbend Water Resources District's basic financial statements. Riverbend's basic financial statements consist of fund financial statements and the notes to the financial statements. The report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

The financial statements – The financial statements are designed to provide readers with a broad overview of Riverbend's finances, in a manner similar to a private-sector business. The Statement of Net Position presents information on all of Riverbend's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of

Riverbend is improving or deteriorating. The Statement of Revenues, Expenses and Changes in Net Position presents information showing how Riverbend's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Riverbend's activities are functions that are intended to recover all or a significant portion of their costs through user fees and charges and are thus, considered as business-type activities.

Riverbend like other governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Riverbend uses three enterprise funds. The Regional Water System Administration fund accounts for the revenue from its participating member entities based on the number of gallons of water purchased by the entities as well as supplemental contributions, as necessary, and consulting fees. The Wet Utilities fund, which is the second enterprise fund, is used to account for the water and wastewater operations. The Regional Water System Facilities Fund is an enterprise fund used to collect debt services payments from member entities and receive bond funds to be used for the construction of a regional water system facility. When placed in service, the new regional water system facility will provide wholesale water to the member entities in the three county region.

The basic financial statements of the enterprise funds can be found on pages 7 - 9 of this report.

Notes to the Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the basic financial statements.

The notes to the financial statements can be found on pages 10 - 20 of this report.

Other Information

The District adopts an annual budget for planning, control and evaluation purposes.

The budgetary information may be found on pages 21 - 23 of this report.

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information required by the Texas Commission on Environmental Quality.

This required information may be found on pages 24 – 35 of this report.

Statistical Section

Additional statistical information has been prepared to complete the comprehensive annual financial report (CAFR) in accordance with Governmental Financial Standards Board (GASB) guidance. The objective of the statistical section is to provide information on financial trends, revenue capacity, debt capacity, demographic and economic information and operating information.

The statistical information may be found on pages 36 – 55 of this report.

Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Riverbend Water Resources District, assets exceeded liabilities by \$14,171,059 as of September 30, 2020. The largest portion of Riverbend's net position are the amounts related to the net investment in capital assets totaling \$9,614,188. Restricted funds in the amount of \$3,189,363 are comprised of \$2,714,457 restricted for bond payments and \$474,906 restricted for Red River Army Depot construction projects. The unrestricted balance of \$1,367,508 may be used to meet the District's ongoing obligations. Riverbend had an increase in net position during the year of \$1,906,698.

Net position, end of year	<u>\$ 14,171,059</u>	<u>\$ 12,264,361</u>	<u>\$ 1,906,698</u>

Riverbend's total operating revenues decreased by \$24,699 in fiscal year 2020 from the 2019 revenue. Charges for services fees for fiscal year 2020 of \$3,559,419 were increased from fiscal year 2019 of \$3,509,452 by \$49,967. Other operating revenues for the fiscal year 2020 decreased by \$74,666. Riverbend's combined operating expenses increased by \$145,608 for a fiscal year 2020 total of \$3,954,838. The Administrative fund's operating expenses decreased

\$64,530 and the Wet Utilities fund operating expenses increased \$131,925. Depreciation expense increased by \$78,213.

Budgetary Highlights

The fiscal year ended with a Wet Utilities Fund budget surplus of \$481,870 attributable to staff vacancies, capitalization of repair expenditures, and favorable expenditure variances. The Regional Water System Administration Fund budget surplus in the amount of \$178,721 is attributable to less expenditures for engineering services than anticipated and other favorable expenditure variances. The Regional Water System Facilities Fund budget surplus in the amount of \$99,513 is due to member city water usage exceeding contracted minimum volumes.

Capital Assets

Riverbend’s capital assets as of September 30, 2020 amount to \$18,025,801. The capital assets include computer equipment, equipment, utility system, intangible assets, and construction in process. Major capital asset additions during the current fiscal year were 5th Street Water Line Replacement \$70,910, 2018 Sewerjet \$69,500, 2020 Ford F-350 Truck with custom bed \$52,197, 2021 Diamond C Trailer \$14,862, Cityworks Work Order System \$70,000, Toyota Forklift \$21,950, and a capital contribution of \$983,153 of TAC Oak Street sewer improvements. Additional information on the District’s capital assets can be found in Note 5 on page 14 of this report.

Total capital assets	<u>\$ 18,025,801</u>	<u>\$ 17,500,733</u>

Debt Administration

In the year ended September 30, 2016, Riverbend issued Riverbend Water Resources Riverbend Water and Wastewater Revenue Bonds Taxable Series 2016A for \$4,925,000 and Riverbend Water Resources District Water and Wastewater Revenue Bonds Taxable Series 2016B for \$6,685,000. Payments of principal in the amount of \$710,000 and interest in the amount of \$404,879 were made during the fiscal year. Total bonded debt at September 30, 2020 totaled \$9,335,000. Additional information on the District’s long-term debt can be found in Note 6 on pages 15-16 of this report.

Economic Factors and Next Year’s Budget

The Wet Utilities Fund budget for fiscal year 2020-2021 includes an increase of approximately 8% in the Red River Army Depot (RRAD) revenue. The increase is due to RRAD’s increase in percentage of usage of overall water and wastewater volumes and budgeting for planning, design, and construction of a new industrial wastewater treatment plant.

The Regional Water System Facilities Fund budget includes a full year of monthly fees, compared to one month in current year, from member entities for debt service on bonds to be issued in the next fiscal year. The bonds will be used for a new regional water treatment facility.

Request for Information

This financial report is designed to provide a general overview of Riverbend’s finances for all those with an interest in the government’s finances. Questions concerning any of the information included in this report or requests for additional information should be addressed to Kyle Dooley, Riverbend’s Executive Director/CEO at kyledooley@rwr.org, 228 Texas Ave Suite A, New Boston, Texas 75570 or by telephone at 903-831-0091.

RIVERBEND WATER RESOURCES DISTRICT

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization and Operations of the Reporting Entity

The Riverbend Water Resources District (Riverbend) is a political subdivision of the State of Texas created with the passage of Texas Senate Bill 1223 in 2009, pursuant to the authority granted by Section 59, Article XVI of the Texas Constitution. This provision authorizes the legislature to create agencies to develop and conserve the natural resources of the State of Texas. In establishing Riverbend, legislature delegated to it all the power enumerated under Article 49 of the Texas Water Code along with the express authority to contract with other states and political subdivisions of other states of the United States in the performance of Riverbend's lawful duties.

In 2011 the Texas Legislature re-organized composition of the Riverbend Board of Directors and appointed a temporary conservator with the passage of HB 3847. The temporary conservator served as Riverbend's administrator until July 4, 2012. The current Board of Directors were appointed January 2012, drew lots to determine staggered terms, with three of the directors serving three-year terms and two of the directors serving four-year terms. The Riverbend Board consists of two directors appointed by the City of Texarkana, Texas, one director appointed by the City of New Boston, one director appointed by TexAmericas, and one director appointed by multiple general law communities within the region.

Riverbend currently serves eighteen (18) organizations including the cities of Annona, Atlanta, Avery, Central Bowie County Water Supply Corporation, DeKalb, Hooks, Leary, Maud, Nash, New Boston, Oak Grove Water Supply Corporation, Redwater, Texarkana, Texas, Wake Village and TexAmericas Center, Bowie, Cass, and Red River Counties. The organizations served by Riverbend desire to procure certain services from Riverbend and participate in the funding of the development of Riverbend projects in exchange for a specified fee and dollar-for-dollar credits towards participation in future water purchases should Riverbend develop such capability, and Riverbend is willing to provide such services and agree to such credits. Organizations served by Riverbend agree to pay or dedicate to Riverbend a fee of \$0.045 per 1,000 gallons of potable water processed through Lake Texarkana Water Supply Corporation facilities that each organization purchases from the City of Texarkana, Texas.

On May 1, 2016 Riverbend acquired and began operating the water, wastewater and industrial wastewater systems formerly owned and operated by TexAmericas Center. Riverbend provides water, domestic wastewater and industrial wastewater services to the Red River Army Depot, the TexAmericas Industrial Park as well as various commercial and residential customers.

In September, 2020 Riverbend began billing the participating members monthly fees as set forth in Water Supply Contracts completed and executed in 2020. The Water Supply Contracts set a fee of \$1.20 per 1,000 gallons of potable water processed through Lake Texarkana Water Supply Corporation facilities that each organization purchases from the City of Texarkana, Texas. The members are charged the greater of their actual usage for the month or the minimum monthly payment set in their water supply contract.

B. Measurement Focus and Basis of Accounting

For financial reporting purposes, Riverbend reports its operations on an enterprise fund basis. Enterprise funds (a proprietary fund type) are accounted for on a flow of economic resources measurement focus. This measurement focus provides that all assets and liabilities associated with operations are included on the Statement of Net Position.

The accrual basis of accounting is utilized by Riverbend for financial reporting. Under the accrual basis of accounting, income is recorded when earned and expenses are recorded at the time liabilities are incurred. The Statement of Revenue, Expenses, and Changes of Net Position present increases (income) and decreases (expenses) in Riverbend net position.

Riverbend distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with ongoing operations. Operating revenues

RIVERBEND WATER RESOURCES DISTRICT

Notes to Financial Statements continued.

include charges for services, member contributions for acting as the designee, local sponsor, and agent for the member organizations regarding certain matters and supervising performance of agreements between the member organizations and the City of Texarkana, Texas as well as consulting revenue. Operating expenses include all necessary costs related to the performance and administration of Riverbend's ongoing activities. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Riverbend reports the following three major Enterprise Funds:

The Regional Water System Administration Fund accounts for the member contributions and expenses related to the activities as the agent for the member organizations regarding certain matters and supervising performance of agreements between the member organizations and the City of Texarkana, Texas.

The Wet Utilities Fund accounts for the operations of the wet utilities systems and facilities providing water, wastewater, and industrial wastewater to its customers.

The Regional Water System Facilities Fund accounts for member entity payments, according to their Water Supply Contracts, for the repayment of the multi-year debt issuance to build a new regional water system. The fund will also account for the bond funds received and capital expenditures for construction of the facility.

When both restricted and unrestricted resources are available for use, it is Riverbend's policy to use restricted resources first then unrestricted resources as they are needed.

C. Assets, Liabilities, and Net Position

1. Cash and Cash Equivalents

Cash and cash equivalents are considered to be cash on hand and cash on deposit, as well as highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

2. Investments

Investments are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

3. Receivables and payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds".

Accounts receivable are considered fully collectible; accordingly, no allowance for doubtful accounts is required. In the event an account in whole or in part becomes uncollectible in the future, such amount will be charged to operations when that determination is made.

4. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

5. Restricted Assets

Some of Riverbend's assets have certain constraints that have been placed on how they can be used. By definition, restricted assets are cash and cash equivalents or other assets whose use in whole or in part is restricted for specific purposes bound by virtue of contractual agreements, legal requirements or enabling legislation. Certain proceeds of revenue bonds, as well as resources set aside for their repayment, are classified as restricted assets on the statement

RIVERBEND WATER RESOURCES DISTRICT

Notes to Financial Statements continued.

of net position because they are maintained in separate bank accounts and their use is limited by applicable bond covenants.

6. Inventories

Inventories are stated at the lower of cost (determined by using the weighted average cost or first-in first-out) or market.

7. Capital Assets

Capital assets are stated at costs. Assets are recorded as property, plant, and equipment when valued at \$10,000 or more and have an estimated useful life in excess of one year. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives is not capitalized.

Capital assets of Riverbend are depreciated using the straight-line method over the following estimated useful lives:

Computer equipment	5 years
Equipment	5-10 years
Utility system	20-60 years
Intangible assets	20-60 years

8. Compensated Absences

Riverbend's policy is to permit the employee to accumulate earned vacation leave. Accumulated vacation time is accrued at year-end to account for Riverbend's obligation to the employee for the amount owed. The employee earns 15 days of vacation each year, or 120 hours. A maximum of 200 unused vacation hours can be carried forward from year to year. A maximum of 200 hours will be paid out upon termination for employees that have been employed for 6 months and worked 1,040 hours. The employee also earns 12 days of sick time each year, or 96 hours. Unused sick time can be carried forward from year to year but is not payable upon termination. The maximum allowable accumulation of sick leave is 600 hours. No accrual for sick time is reported.

9. Long-term Obligations

Long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenses.

10. Contributions of Capital (Non-Monetary Transactions)

Contributions of capital in proprietary fund financial statements arise from outside contributions of resources restricted to capital acquisition and construction. During 2020, Riverbend recognized capital contributions of \$983,153 in the Wet Utility Fund for TAC Oak Street sewer line improvements.

11. Net Position

Unrestricted net position is the net amount of the assets and liabilities that are not included in the determination of the net investment in capital assets or restricted net position. Sometimes Riverbend may fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is Riverbend's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

RIVERBEND WATER RESOURCES DISTRICT

Notes to Financial Statements continued.

12. Use of Estimates

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make some estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in net position during the reporting period. Actual results could differ from those estimates.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

While water district budgets are not “legally adopted” within the meaning of GASB 34, they are adopted according to Texas Law. Riverbend adopts an annual budget for planning, control, and evaluation purposes. Budgetary control and evaluation are affected by comparisons of actual revenues and expenses with planned revenues and expenses.

NOTE 3 – DEPOSITS AND INVESTMENTS

Riverbend adopted an investment policy in accordance with the Public Funds Investment Act which governs all deposits and investments of the District.

Custodial Credit Risk - Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, Riverbend’s deposits may not be returned to it. Riverbend’s demand deposit accounts, and time and saving deposit accounts with financial institutions are each insured by the FDIC up to a maximum of \$250,000. Riverbend requires collateralized securities for the excess over FDIC coverage. The deposits at one bank depository were fully insured by FDIC or additional coverage of pledged securities. The deposits at the other bank depository were not fully insured by FDIC or additional coverage of pledged securities. Uninsured/uncollateralized deposits totaled \$15,813 at September 30, 2020.

Concentration of Credit Risk - Riverbend does not have a formal policy for concentration of credit risk. The District’s investments in public investment pools were rated AAAM by Standard and Poor’s.

Interest Rate Risk - Riverbend does not have a formal policy for interest rate risk.

Investments - Riverbend had funds invested in one investment pool, TexPool for \$900,774 at September 30, 2020. The fair value was \$900,774. The investment maturity was less than 1 year, fair value hierarchy level 1.

Fair value is the amount at which a security could be exchanged in a current transaction between willing parties, other than in a forced liquidation. Under GASB 72, all investments are recorded at fair value.

Local government investment pools operate in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940. Local government investment pools use amortized cost rather than market value to report net position to compute share prices. Accordingly, the fair value of the position in these pools is the same as the value of the shares in each pool. Investments in local government pool are based upon a contract and not the security itself. The above investment pools, which are regulated by the Securities and Exchange Commission, have as one of their objectives the maintenance of a stable net asset value of \$1.00.

The Texas Local Government Investment Pool (“TexPool”) are organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The Texas Comptroller of Public Accounts is the sole officer, director, and shareholder of the Texas Treasury Safekeeping Trust Company (“Trust Company”), which is authorized to operate TexPool. Pursuant to the TexPool Participation Agreement, administrative and investment services to TexPool are provided by Lehman Brothers Inc. and Federated Investor’s, Inc., under an agreement with the Comptroller, acting on behalf of the Trust Company.

RIVERBEND WATER RESOURCES DISTRICT

Notes to Financial Statements continued.

In addition, the TexPool Advisory Board advises on TexPool's Investment Policy and approves any fee increases. As required by the Public Funds Investment Act, this Board is composed equally of participants in TexPool and other persons who do not have a business relationship with TexPool who are qualified to advise TexPool.

NOTE 4 – ACCOUNTS RECEIVABLE

Riverbend's accounts receivable as of September 30, 2020 was \$798,039. Riverbend considers all accounts receivable to be fully collectible; therefore, no allowance for doubtful accounts is recorded. In the event an account in whole or in part becomes uncollectible in the future, such amount will be charged to operations when that determination is made.

NOTE 5 – CAPITAL ASSETS

Riverbend had several construction projects in process during the year ended September 30, 2020. The Regional Planning Master Study, Water Rate Study, Industrial Feasibility Study, and Elevated Water Storage Tank Project had accumulated \$617,704 of construction in progress cost at September 30, 2020. Major capital asset additions during the current fiscal year were 5th Street Water Line Replacement \$70,910, 2018 Sewerjet \$69,500, 2020 Ford F-350 Truck with custom bed \$52,197, 2021 Diamond C Trailer \$14,862, Cityworks Work Order System \$70,000, Toyota Forklift \$21,950, and a capital contribution of \$983,153 of TAC Oak Street sewer improvements. Total depreciation expense of \$763,072 was included in operating expenses. Administrative Fund depreciation expense was \$205 and Wet Utilities depreciation expense was \$762,867.

Capital asset activity for the year ended September 30, 2020 was as follows:

	<i>Balance</i> <i>October 1,</i> <i>2019</i>	<i>Additions</i>	<i>Reclassifications/ Retirements</i>	<i>Balance</i> <i>September 30,</i> <i>2020</i>

Notes to Financial Statements continued.

NOTE 6 – LONG-TERM DEBT OBLIGATIONS

Riverbend has pledged future water, wastewater and industrial wastewater customer revenues, net of specific operating expenses to repay \$11,610,000 in water and wastewater system revenue bonds issued in 2016. Proceeds from the bonds provided financing for the water and wastewater facility acquisition and improvements. The bonds are payable solely from customer net revenues and are payable through 2045. The Series 2016 A bonds are callable in whole or in part inversely on any date at par. The Series 2016 B bonds are callable in whole or in part inversely at any date at par. Average annual principal and interest payments on the bonds are expected to require approximately 21% of net revenues. The total principal and interest remaining to be paid on the bonds is \$13,848,901. Riverbend made \$710,000 of principal payment and \$404,879 of interest payments during the fiscal year ended September 30, 2020. Riverbend incurred \$392,130 of interest expense during the year ended September 30, 2020.

Long-term debt at September 30, 2020 is comprised of the following:

	<u>Rate of Interest</u>	<u>Original Issue</u>	<u>Outstanding September 30, 2020</u>
Riverbend Water Resources District			
Water and Wastewater System Revenue			
Bonds Taxable Series 2016A -- Due serially			
in varying amounts from October 2017			
through October 2045	0.8-4.56%	\$ 4,925,000	\$ 4,420,000
Riverbend Water Resources District			
Water and Wastewater System Revenue			
Bonds Taxable Series 2016B -- Due serially

Accrued compensated absences	49,720	61,859	(51,761)	59,818	19,005
Total	<u>\$ 10,094,720</u>	<u>\$ 61,859</u>	<u>\$ (761,761)</u>	<u>\$ 9,394,818</u>	<u>\$ 759,005</u>

NOTE 7 – RETIREMENT PLAN

Riverbend sponsors a defined contribution plan, Riverbend Water Resources District 457 Plan, for those employees that elect to participate. The plan is a Government Plan as defined in Internal Revenue Code Section 457(b) and is administered through InWest Retirement Solutions. All employees of Riverbend are eligible to elect participation in the plan. Employees may contribute, by salary reduction, a percentage as specified in the Internal Revenue Code. Employee contributions are immediately vested. Riverbend matches the employee contributions on a discretionary basis. Eligible employees may only participate in the matching program after the first 6 months of service. The current policy matches up to 12.5% of employee contributions based on the following rates: 2 for 1 up to the first 4% of contributions; 1 for 1 of 5-7% of contributions; 0.5 to 1 of 8-10% of contributions. Employer and employee contributions to the plan for the year ended September 30, 2020 totaled \$109,043 and \$83,450, respectively.

At the September 30, 2020 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	0
Inactive employees entitled to but not yet receiving benefits	3
Active employees	<u>16</u>
Total	<u>19</u>

RIVERBEND WATER RESOURCES DISTRICT

Notes to Financial Statements continued.

NOTE 8 – RISK MANAGEMENT

Riverbend is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and other claims of various natures. Riverbend participates in the Texas Water Conservation Association Risk Management Fund (Fund) to ensure the appropriate insurance has been acquired for the fund year in relation to District operations and assets in the event of a loss. Riverbend has workers compensation coverage, general liability, errors and omissions liability, and automobile insurance through the Fund. Riverbend maintains coverage of \$1,000,000 per claim and \$9,000,000 additional per claim and annual aggregate in excess of \$1,000,000 for general liability, errors and omissions, and automobile insurance coverage. Riverbend has a deductible of \$1,000 under the policies. There were no settlements in excess of the insurance coverage in any of the three prior fiscal years.

NOTE 9 – INTERFUND BALANCES AND TRANSFERS

During the fiscal year ended September 30, 2020, a payable of \$1,040 was recorded by the Wet Utilities Fund to the Regional Water System Administration Fund with an offsetting receivable recorded by the Regional Water System Administration Fund to reclassify expenses between funds. These interfund balances will be repaid currently. During the fiscal year ended September 30, 2020, the Wet Utilities Fund transferred \$200,000 to the Regional Water System Administration Fund. Transfers totaling \$150,137 were used to cover special projects expenses, engineering, and legal fees associated with the completion of water supply contracts. The balance of the transfers will be used toward projects budgeted but not completed in the current year.

NOTE 10 – ACQUISITION OF WET UTILITIES OPERATIONS

On May 26, 2015 Riverbend and TexAmericas Center entered into an Agreement for Purchase and Sale of Assets and Assignment and Assumption of Contract Rights, providing for the sale of the water, wastewater and industrial wastewater systems that were owned and operated by TexAmericas Center. On April 25, 2016 the Riverbend Water Resources District Board of Directors issued Resolution No. 20160425-02 to close the sale of the water, wastewater, and industrial wastewater systems from TexAmericas Center. The closing date of the transfer was April 28, 2016 and the effective date of the transfer of the wet utility systems, its operations and its employees was May 1, 2016. Riverbend paid \$10,000 for the purchase of the wet utility operations from TexAmericas Center.

The water, wastewater and industrial wastewater operations were acquired as a transfer of operations from TexAmericas Center totaling \$8,318,334. Riverbend received capital assets with a net book value of \$11,026,495 from TexAmericas Center as part of the transfer of the wet utility operations.

Riverbend issued \$4,925,000 Revenue Bonds Taxable Series 2016A and \$6,685,000 Revenue Bonds Taxable Series 2016B which were utilized in part to redeem the TexAmericas Center bonds. As part of the agreement, TexAmericas Center funded a promissory note for \$900,000.

TexAmericas Center retained seven-twelfths (7/12) of the profits from the operation of the wet utility system budgeted by TexAmericas Center for FY 2015-2016. The remainder of the profits, or \$347,520, was transferred to Riverbend in September 2016 and reported as part of the transfer of operations.

RIVERBEND WATER RESOURCES DISTRICT

Notes to Financial Statements continued.

NOTE 11 – WATER SUPPLY AND WASTEWATER TREATMENT CONTRACT WITH RED RIVER ARMY DEPOT

Volumetric Charges and Operating Revenues

Volumetric charges for the water, wastewater and industrial wastewater systems are equal to the annual budgeted amount for operations and maintenance plus an 8% margin/fee multiplied by the Army's actual percentage of overall usage from the prior fiscal year. Volumetric water supply charges are the water supply cost multiplied by the actual RRAD usage each month. During the year ending September 30, 2020 the Army's percentage of usage of the water system was 97.5%, wastewater system was 75.61%, and the industrial wastewater system was 100%. These percentages, applied to the budget for the year ended September 30, 2020, set annually with the Army, produce operating revenue for the system.

Facility Charges

Facility Charges 1 and 2 pay bonded indebtedness currently outstanding for capital improvements previously made in the water, wastewater, and industrial wastewater systems. Facility Charge 3 is for improvements to the industrial wastewater system currently in the design and planning stage. RRAD has requested the construction of a new industrial wastewater plant with an estimated cost of \$13.5M. The net proceeds from all Facility Charges collected are separated in restricted accounts on the statement of net position by Riverbend and managed consistent with generally accepted municipal investment practices.

NOTE 12 – MAJOR CUSTOMERS

Riverbend's Wet Utilities Fund has one major customer, Red River Army Depot (RRAD). At September 30, 2020, RRAD owed the District \$351,424, 85.03% of the billed receivables. Riverbend billed RRAD \$4,214,777, 91.58% of the operating revenue for the year ended September 30, 2020.

NOTE 13 – LEASE AGREEMENT WITH TEXAMERICAS CENTER

Riverbend has three contracts with TexAmericas Center to rent office space for \$1 for the term of the contract. The buildings rented are building 164 with 4,300 square feet, building 167 with 2,400 square feet and the west wing of building 228A with 3,562 square feet. The initial term began May 1, 2016 and terminates April 1, 2017 with options to extend the term for nine additional one-year periods. Riverbend will pay additional rent equal to the rental square feet times an initial rent of \$2.50 per square foot for building 164, \$1 per square foot for building 167, and \$5 per square foot for building 228A for the first year. The additional rent is earned upon the first day of each term and extended term of the lease and is payable by Riverbend in future credits for water or wastewater services redeemable by TAC or its assignees from Riverbend from the current Wet utility systems, any future additional or expansions and from any future new water treatment plant facilities by Riverbend. In order to redeem any accrued water or wastewater credits, TAC will give Riverbend notice for credits to be redeemed in the following budget year. TAC is not permitted to redeem more than twenty percent of the then-current balance of TAC's accrued water and wastewater credits arising from the additional rent during any ninety-day period. The requests are subject to Riverbend's budgetary ability to meet the request. The amount of future credits accrued by TexAmericas Center for the current year ending September 30, 2020 was \$34,845. The cumulative TAC rental water credits are included in the schedule in Note 15.

NOTE 14 – FRANCHISE FEES

A franchise fee of three percent (3%) of the gross revenues generated from the operation of any utility system owned by Riverbend which is located on any real property owned by TexAmericas Center is due to TexAmericas Center on a monthly basis. The amount of the franchise fee to be paid is based on the amount of billed charges for the preceding month. During the fiscal year ended September 30, 2020, Riverbend paid franchise fees of \$101,350.

RIVERBEND WATER RESOURCES DISTRICT

Notes to Financial Statements continued.

NOTE 15 – CONTINGENCIES

Litigation

In the ordinary course of operations, Riverbend is subject to claims from outside parties. After consultation with legal counsel, Riverbend believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

Greg Abbott, Governor of Texas, issued a disaster proclamation on March 13, 2020, certifying under Section 418.014 of the Texas Government Code that the novel coronavirus (COVID-19) poses an imminent threat of disaster for all counties in the State of Texas; and in each subsequent month effective through today, he has issued proclamations renewing the disaster declaration for all Texas counties. Other states also have been declared disaster areas as a result of the COVID-19 pandemic. The pandemic will most probably have a profound effect on governmental and private entities. The extent of the effect cannot at this time be estimated or quantified.

Water fees and credits

An item of operating revenue for Riverbend represent fees paid by member organization for future water credits should Riverbend develop a project with the capability of providing potable water. Each one dollar in advances may be exchanged for one dollar in credits that Riverbend will accept for the purchase of water.

The amount of advances paid by each member organization for Riverbend fees, supplemental contributions and rental credits by year is as follows:

<i>Member Organization</i>	<i>2020</i>	<i>2019</i>	<i>2018</i>	<i>2017</i>	<i>2016</i>	<i>Prior Years</i>	<i>Total</i>

RIVERBEND WATER RESOURCES DISTRICT

Notes to Financial Statements continued.

NOTE 16 – CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

The District has been approved for \$200M of funding from the Texas Water Development Board's Drinking Water State Revolving Fund for the construction of a new regional water treatment facility. Water supply contracts with the participating member entities have been completed. The water supply contracts support the payment of the multi-year bond issuance package. The District and the City of Texarkana, Texas have submitted a water rights application to the Texas Commission on Environmental Quality (TCEQ) seeking to secure the future water needs of the region.

The District is also working with RRAD to build a new industrial wastewater treatment facility. Application for funding will be completed in FY2021.

NOTE 17 – SUBSEQUENT EVENTS

In preparing these financial statements, management of Riverbend has evaluated events and transactions for potential recognition or disclosure through January 12, 2021, the date the financial statements were available to be issued.

On November 23, 2020 the District closed on the first of four bond issuance packages through the Texas Water Development Board's Drinking Water State Revolving Fund for the construction of a new regional water treatment facility. The revenue bonds payable over 30 years are Riverbend Water Resources District Contract Revenue Bond (Regional Water System Project), Taxable Series 2020A in the amount of \$10,800,000 and Riverbend Water Resources District Contract Revenue Bond (Regional Water System Project) Series 2020B in the amount of \$7,200,000.

RIVERBEND WATER RESOURCES DISTRICT

SUPPLEMENTARY INFORMATION SCHEDULE OF SERVICES AND RATES FOR THE YEAR ENDED SEPTEMBER 30, 2020

1. Services Provided by the District during the Fiscal Year:

- | | | |
|---|--|-------------------------------------|
| <input checked="" type="checkbox"/> Retail Water | <input checked="" type="checkbox"/> Wholesale Water | <input type="checkbox"/> Drainage |
| <input checked="" type="checkbox"/> Retail/Wastewater | <input checked="" type="checkbox"/> Wholesale Wastewater | <input type="checkbox"/> Irrigation |
| <input type="checkbox"/> Parks/Recreation | <input checked="" type="checkbox"/> Fire Protection | <input type="checkbox"/> Security |
| <input type="checkbox"/> Solid Waste/Garbage | <input type="checkbox"/> Flood Control | <input type="checkbox"/> Roads |
| <input checked="" type="checkbox"/> Participates in joint ventures, regional system, and/or wastewater service
(other than emergency interconnect) | | |
| <input type="checkbox"/> Other (specify): _____ | | |

2. Retail Service Providers

a. Retail Rates for a 5/8" meter (or equivalent):

	Minimum Charge	Minimum Usage	Flat Rate Y/N	Rate per 1,000 Gallons Over Minimum Use	Usage Levels
WATER:	\$ _____	SEE _____	_____	\$ _____.	_____ to _____
WASTEWATER:	\$ _____	ATTACHED	_____	\$ _____.	_____ to _____
SURCHARGE:	\$ _____	SCHEDULE	_____	\$ _____.	_____ to _____

District employs winter averaging for wastewater usage? Yes No
 Total charges per 10,000 gallons usage: Water: \$ _____ Wastewater: \$ _____

b. Water and Wastewater Retail Connections:

Meter Size	Total Connections	Active Connections	ESFC Factor	Active ESFCs
Unmetered	0	0	x 1.0	
≤ 3/4"	20	14	x 1.0	
1"	33	27	x 2.5	
1 1/2"	8	6	x 5.0	
2"	14	11	x 8.0	
3"	12	7	x 15.0	
4"	4	4	x 25.0	
6"	3	3	x 50.0	
8"	3	3	x 80.0	
12"	2	1	x 115.0	
Total Water	97	74	██████████	
Total Wastewater	72	58	x 1.0

SUPPLEMENTARY INFORMATION SCHEDULE OF SERVICES AND RATES (CONTINUED) FOR THE YEAR ENDED SEPTEMBER 30, 2020

3. Total Water Consumption during the Fiscal Year (rounded to the nearest thousand):

Gallon pumped into system:	262,682,254	Water Accountability Ratio: (Gallons billed/Gallon pumped)
Gallons billed to customers:	262,682,254	_____100%_____

4. Location of District:

County(ies) in which District is located: Bowie, Cass, Red River

Is the District entirely within one county? Yes No

Is the District located within a city? Entirely Partly Not at all

City(ies) in which the District is located? _____

Is the District located within a city's extra territorial jurisdiction (ETJ)?
Entirely Partly Not at all

ETJs in which the District is located: See above

Are board members appointed by an office outside the district: Yes No

If Yes, by whom? _____

* Fees of office are amounts actually paid to a director during the District's fiscal year.

** Travel and mileage reimbursements.

*** Includes monthly car and cell phone allowances.

Statistical Section

Statistical Section

This part of the District's comprehensive annual financial report represents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health. Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Financial Trends – Schedule 1 through Schedule 2 - These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity – Schedule 3 through Schedule 5 - These schedules contain information to help the reader assess the District's most significant revenue sources.

Debt Capacity – Schedule 6 through 7 - The schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information – Schedule 8 through 10 - These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information – Schedule 11 through 13 - These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Overall Internal Controls and Compliance

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENTAL AUDITING STANDARDS***

Independent Auditor's Report

Board of Directors
Riverbend Water Resources District
Texarkana, TX

Members of the Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Riverbend Water Resources District (Riverbend), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Riverbend's basic financial statements, and have issued our report thereon dated January 12, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Riverbend Water Resources District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Riverbend's internal control. Accordingly, we do not express an opinion on the effectiveness of Riverbend's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Riverbend's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
